

Even More Reasons Why a Cirrus Vacuum Cleaner is your BEST choice.

Micron Filtration

The Cirrus uprights have multi-stage Micron filtration featuring 2ply filter bags, electrostatic exhaust filters and HEPA rated filters (see detailed specifications) to provide cleaner air in your home and better cleaning performance.

Solid Construction with Metal Parts

Cirrus vacuum cleaners have metal motors with ball bearing construction; metal agitators for long life, metal pivot points and many other metal parts where critical wear items require durable materials. Today many lesser quality vacuum cleaners use cheap plastic where they should use metal. Quality is NOT compromised in Cirrus vacuum cleaners!

ONE YEAR WARRANTY

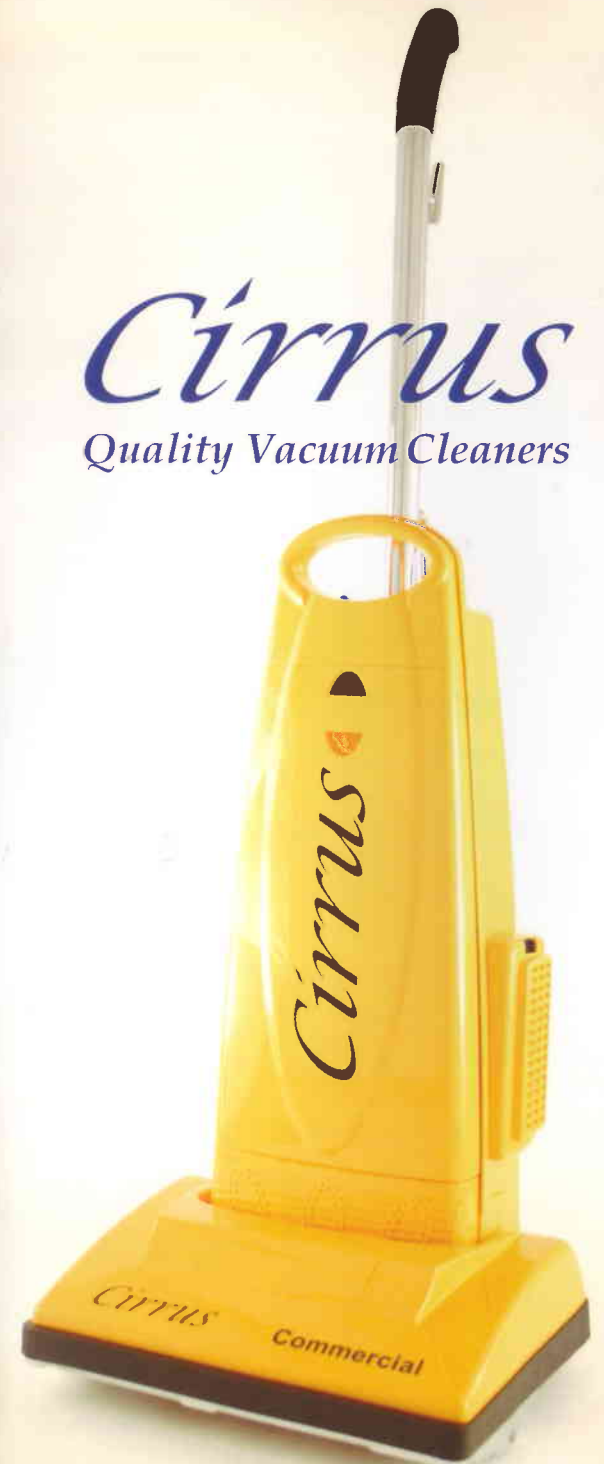

Your Cirrus vacuum is backed by a full ONE YEAR Limited WARRANTY. Cirrus Trading LTD. warrants that your Cirrus cleaner, for a period of one year from your date of purchase, will be free from all defects in material and workmanship for normal use in accordance with the Owner's Manual. This limited warranty is granted only to the original purchaser and does not cover abuse, misuse or negligence. This limited warranty is subject to certain provisions as stated in the complete warranty statement included with each Cirrus vacuum cleaner.

COMMERCIAL

Why a Cirrus Vacuum Cleaner is your BEST choice today

On-Board Tools

Models featuring on-board tools boast a complete set of cleaning tools for all the little hard to reach places. Never waste time looking for your attachments again. The stretch hose and telescoping wands reach up to 8 feet.

Ametek Motors in a Sealed Chamber The Heart of the Cirrus Upright

Cirrus vacuum cleaners use only the best motors from AMETEK Electric, to insure long life and trouble free performance. These durable motors are installed in a sealed chamber to assure that the dust is exhausted through the filter NOT out of the seams of the vacuum cleaner. This gives you a cleaner home and less dust emissions!

Easy-Carry Handle

All Cirrus commercial uprights feature a carry handle to make your job easier. This handle keeps the weight distributed comfortably to ease the strain of carrying the vacuum up stairs.

All Steel Handle

The durable steel construction assures it will last even on tough commercial jobs. The ease and comfort of the foam handle grip makes vacuuming a pleasure. Unlike many lesser quality vacuum cleaners with plastic cord hooks, these all metal cord hooks will be there for the life of the vacuum.

Comparison of Features & Specifications By Model
